

CEPIS
Council of European Professional
Informatics Societies

Welcome to the CEPIS member update. In this issue, learn about the new European Skills Agenda, give your opinion on the updating of the Digital Education Action Plan, and explore various initiatives of CEPIS members about women in tech. Discover all this and more below!

Commission releases New Skills Agenda

On 1 July, the European Commission published the The New Skills Agenda, which contains a list of objectives for upskilling and reskilling Europe's workforce by 2025. [Read more](#)

Commission calls for opinions on updated Digital Education Action Plan

The European Commission has updated its Digital Education Action Plan proposal from earlier this year to better reflect the new circumstances created by the crisis. The action plan's aim is to increase digital literacy, help EU countries work together to adapt their education and training systems to the digital age and harness the internet's potential to make online learning available to all. New ITPE e-CF user tool coming soon

Competent and careful. Recognised and respected.

ITPE is developing an interactive tool to explore the e-Competence Framework and the ICT Role Profiles. The tool will allow the user to browse the framework diagram and read the descriptors of each competency, select roles to view the competency/levels that define them, as well as the role and competency descriptions and create his/her own custom profile (a set of competencies/levels). [Read more](#)

ITPE e-CF User Group for industry held on 1 July

On Wednesday 1 July ITPE held the e-CF User Group's meeting focusing on application of the European e-Competence Framework (e-CF) in companies. [Read more](#)

Job profiles and employability profiling tool from Women4IT Project

Six job profiles have been selected and trainings for those positions will start in September 2020. Additionally, an online employability profiling tool has been designed in order to help the women involved in the project to be directed towards the best digital job matching their personality and skills. [Read more](#)
