

Central European Cybersecurity Conference 2017

Fakulteta za varnostne vede Univerze v Mariboru 16. in 17. novembra 2017 organizira prvo mednarodno konferenco s področja informacijske varnosti (<https://www.fvv.um.si/cecc2017/>). Ozaveščanje in poznavanje omenjene tematike je v današnjem svetu nujno. Informacijska varnost je namreč tema, ki je zasidrana v način življenja slehernega posameznika in organizacije. S tem namenom bo konferenca združila znanja in mnenja strokovnjakov z različnih področij informacijske varnosti; prikazala učinke ustrezne ravni informacijske varnosti na delovanje organizacij, delo posameznikov in spoznavanje z grožnjami v kibernetnem prostoru.

Konferenca je namenjena vsem zainteresiranim, s poudarkom na strokovnjakih iz gospodarstva, javne uprave in posameznikom, ki se srečujejo z vprašanji širšega področja informacijske varnosti. Na konferenci bo sodelovalo 25 znanstvenikov in strokovnjakov iz srednjeevropskega prostora in širše. Vabljeni predavanji bosta izvedla globalno priznana znanstvenika na področju kibernetne varnosti prof. dr. Stefan Katzenbeisser z naslovom Enforcing Software Integrity in the Internet of Things in prof. dr. Jörg Keller z naslovom Network Steganography: Principles, Countermeasures, Applications.

Več o konferenci in možnost prijave najdete na <https://www.fvv.um.si/CECC2017/>

Veselimo se vašega obiska, se vidimo na konferenci.

Faculty of Criminal Justice and Security, University of Maribor organises its first international conference on information security on 16th and 17th November 2017 (<https://www.fvv.um.si/cecc2017/>). Awareness and knowledge about information security is prerequisite in current times. It is namely intertwined in everyone's daily life. This applies also to organisations. With the intent to make aware and to spread the knowledge on information security will the conference combine the knowledge and opinions of experts from various fields of information security and present effects of appropriate information security on the functioning of organisations, individuals' work and on recognizing threats in cyber-space.

The conference aims to all interested parties, with particular emphasis on experts from commercial sector, public service and individuals, which deal with the issues of information security. There will be 25 scientists and experts from Central Europe. Invited lectures will be performed by globally recognised scientists on cyber-security; prof. dr. Stefan Katzenbeisser with lecture Enforcing Software Integrity in the Internet of Things and prof. dr. Jörg Keller with the lecture Network Steganography: Principles, Countermeasures, Applications.

More about the conference and the application could be found on <https://www.fvv.um.si/CECC2017/>

We look forward to welcoming you at the conference.
